Data Sheet

HubOne
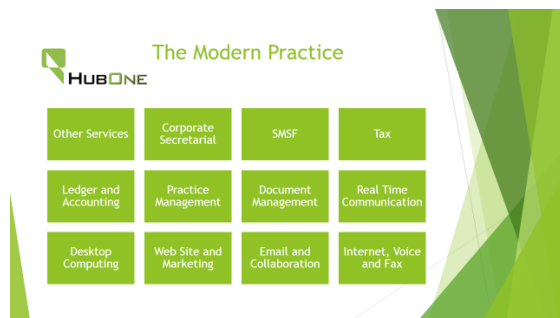

The Modern Practice Architecture offers a complete solution for accounting firms wishing to move to the cloud. This datasheet shows the benefits and features of the solution.

The Modern Practice is a solution; that is a combination of software, services and guidance which solves a number of problems and delivers a number of benefits for its customers.

At the heart of the Modern Practice Solution is the concept that customers realise the most value from the cloud when **all of their systems are in the cloud.** This solution offers this by delivering every required component of an accounting practice in the cloud as illustrated in the diagram below:

The Modern Practice

Other Services	Corporate Secretarial	SMSF	Tax
Ledger and Accounting	Practice Management	Document Management	Real Time Communication
Desktop Computing	Web Site and Marketing	Email and Collaboration	Internet, Voice and Fax

In addition, HubOne offers the necessary design, implementation and ongoing support services to ensure a successful delivery for each of our customers. Organisations that have implemented a Modern Practice have found significant hard cost savings in their business by adopting the solutions, and recognising the benefits that this platform provides.

HubOne have implemented the Modern Practice solution at over 150 accounting firms, and as Australia's most experienced cloud integrator, you can rest assured that we can deliver a solution that meets your needs.

The checklist that follows shows each of the features and benefits of a client firm moving to the cloud.

By leveraging our experience in integrating existing cloud products (and where solutions don't exist, writing them) we are able to offer the most comprehensive single solution for accounting practices wishing to move to the cloud today.

We have chosen best of breed partner products to deliver the modern practice to you. These partner products are listed below:

Microsoft Office 365 provides for a core set of features for email, collaboration, document management and real time collaboration.

Mailchimp provides advanced email and newsletter capabilities

OneSaas provides integration between practice management and Mailchimp.

Microsoft® Windows Intune provides desktop management capabilities.

Mynetfone provide internet, voice and fax capabilities for our customers

The HubOne Modern Practice Portal provides integration and tools to round out the document management and portal requirements of the solution.

Modern Practice

Xero provide a number of solutions used in the Modern Practice, including Xero itself, Practice Studio, Workpapers, ledgers and Xero report packs.

We use Amazon web services where appropriate to host legacy server based applications.

We also use Microsoft Windows Azure to host legacy applications.

OneLogin provides single login to all cloud applications and enhances security.

The Modern Practice is a world class combination of products and services to ensure your firm becomes the best it can, with pay as you go pricing, most firms end up paying in the order of $110 per staff member per month for all of the features above.
